

## ALLIED TELESIS

### TOTAL NETWORKING SOLUTIONS

Networkology have chosen to partner with Allied Telesis in order to provide dependable, intelligent connectivity and infrastructure to our clients. Networkology's status as a Platinum Partner demonstrates our commitment and expertise, with the shared knowledge base allowing the partnership to provide our clients secure, feature-rich and scalable data exchange solutions.

For more information on our Allied Telesis offerings, visit: <https://networkology.com/services/network-comms/alliedtelesis/>

#### ALLIED TELESIS SWITCHES

Allied Telesis switches make reliable networking easier to use and more secure, offering managed and unmanaged switches to span the needs of enterprise organisations of all sizes.

From basic office connectivity to critical applications in harsh environments, partnering with Allied Telesis means Networkology can provide the right products for our client's varied projects.

##### FEATURES & BENEFITS:

###### SMART & SECURE

Build a network that defends itself for instant threat responses without manual intervention.

###### EASY MANGAEMENT

Forget your network with our autonomous management tools that save you time and money.

###### CERTIFICATIONS

Independently tested so you can be confident you're using the best products.

#### RANGE OF SWITCHES AVAILABLE

Allied Telesis have a range of switches for your business needs:

- Enterprise Campus Switches
- Small Business Switches
- Power Over Ethernet Switches
- Industrial Switches

#### ALLIED TELESIS MEDIA CONVERTERS

Allied Telesis' complete family of media converters solves long distance and legacy connection issues.

Standalone units, chassis-based blades, and industrial media converters are designed to extend the connectivity of your network for any application and boast several unique features, to improve troubleshooting and simplify network administration.

##### FEATURES & BENEFITS:

###### REMOTE POWER CYCLE

Reset connected devices without requiring on-site intervention.

###### SMART MISSING LINK

Provide visibility of broken links between media converters.

###### COAX & TWISTED PAIR

Reuse legacy infrastructure with VDSL media converters.

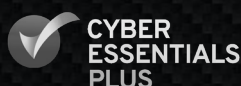

#### RANGE OF MEDIA CONVERTERS AVAILABLE

Allied Telesis have a range of media converters for your business needs:

- Managed Media Converters
- Unmanaged Media Converters
- Industrial Media Converters

## ALLIED TELESIS NETWORK ADAPTERS

Allied Telesis seamlessly connects desktops, servers and thin clients with a continually expanding portfolio of high-quality, reliable and cost-effective network adapters. Whether you're upgrading a network or in the market for new adapters Allied Telesis have the right adapter for your business needs.

## RANGE OF NETWORK ADAPTERS AVAILABLE

Allied Telesis have a range of Network Adapters for your business needs:

- **100M Network Adaptors**

Allied Telesis Fast Ethernet Fibre PCI-Express Network Adapters provide the ultimate solution for upgrading to PCI-Express. Ideal for government, education or other networks with high security requirements.

- **1G & 10G Network Adaptors**

Entry-level options: Upgrade your network capacity to 10G, for high-demand applications. High Performance and Reliability: Comprehensive Microsoft Windows utility which performs detailed tests, diagnostics and analysis.

## NETWORK INTELLIGENCE WITH AMF

Networkology's Platinum Partner status can provide clients with several further tools to increase network intelligence whilst reducing network complexity.

The Allied Telesis Autonomous Management Framework™ (AMF) comprises a powerful suite of management tools which can automate your everyday network administration tasks, offering immediate and real value to clients.

Watch this clip on introducing AMF:
