DESCRIPTION

This 100G-4WDM compatible QSFP28 transceiver provides 100G throughput up to 10km over Single-Mode Fibre (SMF) using a wavelength of 1310nm via an LC-Duplex Connector. It is guaranteed to be 100% compatible with the host OEM switch, router or network interface card (NIC).

This easy to install, hot swappable transceiver has been pro-programmed, uniquely serialized and application tested to ensure that it will initialize and perform identically to the OEM Transceiver. Digital Optical Monitoring (DOM) support is also present to allow access to real-time operating parameters.

We stand behind the quality of our products and proudly offer a lifetime warranty.
